## It's simple:

- ◆ Purchase a Watering Can
- ◆ Fill it with Quarters
- ◆ Bring it to Girls Day Out

This year, the YWEA and Girls on a Mission combined project is, "Planting a Future of Hope" in Cota, Colombia. Each group is asked to bring one watering can (like you water plants with) filled with quarters to "Girls Day Out" to help rescue the children of Cota, Colombia. As you collect quarters, pray for the children and teen girls in Cota. There is a lot of information regarding the project at myywea.com, including promo videos for all ages (adult, teens, & children). Please count the quarters prior to coming and write your church name and amount on the bottom of the can. This amount will be added to your total giving for award recognition. Bring it to registration on Saturday. Thank you for making a difference in Cota, Colombia!
