

*The Church of God has supported 4 orphanages within the Ukraine  
for many years;*

**1. Sails of Hope**

This is our oldest orphanage. Even though located within the war zone, due to improper documentation, we could not extract this orphanage. The children within this orphanage has been separated and placed into Foster Care Homes in Central and Western Ukraine. Due to the war The Sails of Hope Facility has been destroyed.

**2. Pilgrim's Republic**

This orphanage has been extracted to Gruntal Germany, just 6 miles from the European Theological Seminary. Their facility in Mariupol, Ukraine has been demolished by the war.

**3. Native Home**

This orphanage was extracted to the European Theological Seminary in Kniebis, Germany and was later taken to Blanes, Spain where they are today. Their facility in Western Ukraine is still operational and functional and today houses displaced Ukrainian people.

**4. Pearl**

This orphanage was extracted to the Country of Lithuania. During their time in Lithuania, their facility was used to house displaced Ukrainian people. In August 2022, the Pearl Orphanage returned home.

It was never the intentions of Church of God World missions to extract these children and never take them back to their homeland. They were simply, temporarily being removed from harms way. Today these children desire to return home. Their parents, siblings, friends and extended family live in Ukraine. They miss their family, friends and homeland. We need your help. The children need your help. Please help us make "The Journey Home" possible.
